3. The barracks installation in Perleberg was occupied by only a guard detail who wore crimson epaulets on 9 September 1950. Repair work was still going on and was to be completed by 15 September 1950. Motor vehicles [REDACTED] were observed there. * 25X1B

25X1A

- * Comment. The report indicates that the elements of the 18th Lecz Div which are stationed in Perleberg, [REDACTED] 25X1B were still in the Wittstock maneuver area on 9 September 1950. The information that the repair work in the barracks was to be completed by 15 September 1950 indicates that the units will presumably return to the post after that date.
